SHORT BIO

Son of Loughlin writes honest songs – from the heart of a sensitive soul unafraid to tell his truth. His music imbues feelings of melancholic optimism and resonates through memorable, poignant lyrics. Well-crafted stanzas, catchy hooks, and a distinct and powerful voice shape the listening experience.

After a few quiet years following the release of singles Readjust and Changing of a Season and the EP Chasing What I Found, he is releasing new music with a four-track EP called From the Essence. The EP features a song about his hometown, one about estrangement, the other difficult to define, and another about the wonderment of new beginnings and moving on.

Loughlin = (Lock-lin) 🍀
